

So your date's set, the venue is booked - and now you are looking to choose a photographer...

What makes us different from the rest?

David has been photographing weddings for 30 years - he photographed his first when he was 13... so the 1,200 he's covered since gives a wealth of experience. Not all weddings are the same - we spend time to find out exactly the style and look you are after, then David takes most to suit - though it's best to keep some traditional to keep older relatives happy!

We only photograph one wedding a day. There are no real limits - we'll spend as long as you want - take as many images as we can - and you'll end up with a large number of prints (usually 300+) the photos on to our website and a copy on CD.

The only thing not included with the coverage fee is a finished album - we leave that out to allow you to choose from a wide selection - ranging in cost from a few hundred to a few thousand - though most are nearer to the bottom end...!!

Among the countless awards won by David are:
Master Photographers Association:-

Winner of the Denis Hylander Award for Wedding Photography (2000)
Three times finalist in the Master Photographer of the Year
Within Scotland the following:-
Winner of Scottish Wedding Photographer of the Year (2000)
Traditional Wedding category winner - twice
Reportage Wedding category winner
Monochrome category winner

16 Fuji Wedding & Portrait Awards

There are a range of different styles of wedding photography - ranging from very traditional through to reportage (captured without any direction from the photographer) with a vast range inbetween.

We'd like to think that we are versatile enough to give you the styles you like the most, and a mix wide enough to keep the rest of the family really happy

We photograph entirely with digital cameras - they allow us to take hundreds of photographs quickly and discreetly - and afterwards we can convert images to B&W, sepia, soft focus etc - as well as "swapping heads" and removing distracting details. All the prints we produce for you are made in our own lab - in which we have invested almost £200,000 over the past five years - so you can be assured of great print quality.

Our prices are simple to understand. We have a coverage fee which includes all the time you need and travel costs to anywhere in mainland Scotland. It includes two sets of previews of the best photos of the day - which is around 300 different images - one set comes complete in a preview binder. We also put all your images online - and you get a copy of the site plus larger files on a CD or DVD for your computer.

The only thing not included is your finished album - there are a wide selection of styles and designs which can vary in price from a few hundred to two thousand. We are reviewing the albums we use - look at the website to see the new styles.

There is, however, no requirement for you to buy any album - it's much more important to get the photographs sorted first. You can opt to frame just a few prints, or we can supply prints for you to make your own. We are happy with whatever you choose!
